Hi Chip,

I was wondering if there was a map available that shows the collection locations.

Thanks,

Jennifer

Subject: Small mouth bass tissue sampling

Just a quick note on status of the sampling for 2012, and to provide the data from 2011 as discussed at the TCT yesterday. The LWG agreed this morning to move forward with sampling this year and is preparing an update to the 2011 SAP for EPA review. We'll be working closely over the next 2 - 3 weeks on details and logistics with the goal of starting the sampling by end of August.

The results from our limited data set from last year is attached. There is also a draft data report that is being revised and should be available in the next couple of weeks.

thanks
Chip

1. The tables provided in the draft report in Excel format, and
2. Fish tissue data for the Portland Harbor database in Excel format
